Project Title

StuDyIo - Turn your student experience into a portfolio worth sharing.

Project Description

StuDyIo helps students turn their education, skills, projects, work experience and contact details into a shareable portfolio. Account holders can save their information, choose one of three designs, preview the result, and manage their portfolios.

Technologies Used

Laravel 13, PHP 8.4, Blade, Tailwind CSS 4, Vite 8, PostgreSQL on Supabase, Supabase Storage, Brevo transactional email over HTTPS, Docker, Render and GitHub.

Database Platform

Supabase PostgreSQL, project StuDyIo.

Hosting/Deployment Platform

Render Web Service, deployed with Docker.

Database Structure

The PostgreSQL schema contains 16 tables. Each table lists its columns, database types, keys or defaults, and nullability.
